

3rd YEAR GREEN GLOBE CERTIFIED

Bali, June 20th of 2015

Green Globe is the premier worldwide certification program developed specifically for the travel and tourism industry. The Green Globe Certification Standard provides Hotel and Resort organizations with a framework to conduct a comprehensive assessment of their environmental sustainability performance, through which they can monitor improvements and achieve certification. This year there are 320 compliance indicators and we, The Samaya Seminyak, has successfully achieved a compliance score of 84% for the related indicators. This made The Samaya Seminyak awarded for its Green Globe re-certification for the 3rd year respectively.

Our current “Green Programs” that we have in house are progressive and continually being updated. Samaya’s new projects which support our Green programs are:

- Growing endangered plants with recycling plastic bottles being used as flowerpots
- Making our own organic fertilizer
- Working closely together with tourism schools by providing sustainability training as well as Aids awareness classes
- Supporting the turtle conservation organization
- Building rainwater collection tanks
- Participating on Earth Day with education on sustainability for staff and cleaning the surrounding of the hotel including the beach
- General waste reduction
- Selling local goods in the spa area and purchasing local products whenever available
- Using only glass water bottles in the restaurant and mini bars
- Encouraging suppliers to minimize of packaging
- Decreasing pollution from our property including sound proofing of generator rooms

We thank Green Globe audit team for all of their help and assistance. We will continue with our Green Team headed by Eka Dilaga (our Resort Service Manager) and Ray Clark (our General Manager) to strive forward with our sustainable operations using methods and

modes that come in line with current best practices. We at The Samaya Seminyak will also continue to research the Echo-Green sustainable to keep abreast of new trends and resources to assist us.(smy/sh)
